Our contemporary writes thus of the work before His Excellency:-

The experience of Sir Fraderick Wold in New Zealand should be of great benefit to these Settlements as well as the Malay States, especially in matters of agriculture and land tenure. There is no doubt that a great deal depends on the protection and essistance which is afforded to the European pioneers who have lately brought capital and experience to the Straits, and who are opening up land at considerable importance to the Colony. European planters who open up land in the Malay States deserve every support from Government, and ought to be nealt with, as regards the terms on which they acquire, and hold abandoning it for fresher and richer soil, had left a bag of jewels behind keep off the flies fiven at home there was leaving it in an exhausted state from her which it will not recover for perhaps small extent in Melacca amongst the Chinese Tapioca planters without any notice tapions and sugar planter acts differently and expects that the longer he holds the land the more valuable it will become, and angely when such is the dete he deserves to allow him to possess his property on the most advantageous terms possible. SUPREME COURT. IN CRMINAL SESSIONS. (Before His Lordship the Chief Justice, Sir John Smale). Friday, May 21.

QUESTION OF PROCEDURE.

The jury had been called and sworn, and Wong Acheong, charged with larceny clothing, placed in the dock. The prisoner had pleaded that he intended to steal the clothing but did not really steal it. Attorney General had briefly opened the case, explaining that the evidence was so simple that it was not requisite for him to give any outline of it; the man was, if they believed the evidence, found in the very act if the intent was to steal, it was quite that sufficient that the goods had been moved one yard; if they believed the swidence, than that. The learned Counsel was about to proceed to call evidence, when Inspector loon; she had been warned to attend but was not here. The Attorney General complained bitterly of the work of the Court being so much at the mercy of the police as to allow of a fiasco like this occurring. He asked his Lordship to make some rule to guide the progress of public business, so that there should not be the inconvenience

His Lordship said he had spoken of it so often that he was tired of speaking of it. He had no authority over the police, and it was useless for him to speak, he might as well make recommendations as talk to the wind. The Attorney General complained squandered.

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, Gorman, Spanish, Italian or Por-tuguese, are admissible. Endeavours are made to present a resumó in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

department. Notes and Replies are classified toge- Union Church, Elgin Street. ther as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Fostry in this volume is alone worth the price of the Review. Address China Review, Hongkong.-Northern Christian Advocate (U.S.)

Trubner's Oriental Record contains the following notice of the China Review :- "This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calculta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly Queen's Road. creditable to their respective authors. In Watches, Jewellery, Charts, Binocua paper on Dr. Legge's She King, by the lars, Optical Instruments, Mordan's Rev. E. J. Eitel, to which the place of Pencil-cases, &c. John Noble, agent honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness | makers, Eastern House of Beaconsfield of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its prede-ceasor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a aubstantial octavo magazine.

THE CHINESE MAIL

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and accurities necessary to place it on a business andlegal footing.
